

Save the Date: Hospital Engineering Trends 2023 on 18th – 19th September 2023

Dear Ladies and Gentlemen,

We would like to draw your attention to our next event:

Hospital Engineering Trends (HET) 2023

18th and 19th September 2023

Technical University of Applied Sciences Amberg-Weiden in Weiden.

In addition to the general topics around architecture, construction and technology in healthcare, we take a closer look at patient-centered healthcare with you this year.

You can expect exciting two-days with innovative topics, expert speakers as well as plenty of time for exchanging ideas and networking.

We would be delighted if you could also forward this announcement to other interested colleagues.

You will receive an invitation with the full program and further information including registration soon.

I am looking forward to two exciting days together

Prof. Dr. med. Clemens Bulitta, President of OTH Amberg-Weiden
